Product Information

LIMSLIP ADDITIVE 7098

A Penrite Limslip Additive is a supplement additive designed specifically for use in limited slip differentials to overcome problems with squeal, squawk or chatter

APPLICATION

As a supplement to formulated limited slip gear oils to overcome the problem of adsorption of the additive into friction materials, especially in plate type differentials.

Also effective in changing the oil friction properties to allow correct operation of cone type differentials.

150ml will treat an axle with up to 2L capacity.

Particularly recommended for use in BTR/Dana differentials fitted to V8 Holden and Ford cars, Holden/Isuzu light commercials and Jeep.

CUSTOMER BENEFITS

- Compatible with hypoid and limited slip gear oils
- Can be used in mineral or synthetic oils
- Improves differential performance
- Reduces squeal and binding

INDUSTRY SPECIFICATIONS

GM Part Number 1#1052358
