GEARBOX OIL 30 AND 40

Multigrade Gearbox Oil

Issue: May 2015

| PRODUCT CODE | PACK SIZE | CTN / QTY |
|--------------|-------------------|-----------|
| GB30001 | 1 Litre | 6 |
| GB30005 | 5 Litre (UK only) | 4 |
| GB40001 | 1 Litre | 6 |
| GB40005 | 5 Litre (UK only) | 4 |

Product Description

Gearbox Oil 30 & 40 are multigrade gearbox oils designed specifically for use in vehicles that originally used the same oil in the gearbox as was recommended and used in the engine. Many vehicles manufactured in the fifties and sixties specified engine oil for use in the gearbox. Whilst this was convenient, a proper gear oil was a better alternative. Both **Gearbox Oil 30 & 40** meet the requirements of API GL-1.

Application

Gearbox Oil 30 & 40 can be used in vintage, veteran and classic gearboxes including those fitted with overdrives and those vehicles fitted with pre-selector gearboxes.

Gearbox Oil 30 is a SAE 20W-60 oil designed for use where monograde 30 oils were originally specified.

Gearbox Oil 40 is a 25W-70 oil designed for use where monograde 40 or 50 oils were originally specified.

Product Benefits

- Do not contain friction modifiers so will not cause overdrives and pre-selector bands to slip.
- Do not contain EP additives so are compatible with synchro cones and other metal parts.

Typical Data

| | GB30 | GB40 |
|---------------------------------------|------|------|
| Viscosity, Kinematic, cSt at 100°C | 24.0 | 28.0 |

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect product performance. An MSDS is available on request.
