

INDGREASE 1615WR

Calcium Sulphonate Complex Grease

Issue: February 2016

Product Code:	Pack Size:	Carton Qty:
INDGR1615WR020	20 kg	1
INDGR1615WR180	180 kg	1

PENRITE

Description

Indgrease 1615 WR is an NLGI 1.5, calcium sulphonate complex thickened extreme pressure lubricating grease. The grease contains mineral oil base with antioxidants and corrosion inhibitors. The product does not contain conventional EP and anti-wear additives as they are built in as an integral part of the soap structure.

Application

Indgrease 1615 WR is a modern high performance product especially suitable for industrial applications. The extreme load carrying capacity and the excellent water resistance make the product a perfect choice for heavily loaded applications or wet and corrosive environments.

Indgrease 1615 WR has a functional soap (thickener) that gives the product excellent load carrying capacity making it suitable for heavily loaded applications.

Indgrease 1615 WR is suitable for applications including in the journals of antifriction bearings used in equipment in as paper mills and steel rolling mills.

Product Benefits

- Superb mechanical stability
- Good corrosion protection
- Excellent water resistance
- Exceptional load carrying capacity

Industry Specifications

NLGI 1.5 DIN 51502: KP1.5N-20 ISO 6743: ISO-L-XBDFB1.5

Typical Data

Colour Visual	Brown
Thickener Type	Calcium Sulphonate Complex
Base oil	Mineral oil
NLGI Grade ASTM D217	1.5
Dropping point IP 396	>260°C
Base oil viscosity at 40°C, cSt	460
Base oil viscosity at 100°C, cSt	30
4-ball weld load DIN 51350:4	>6500 N (>660kg)
Temperature range	-20°C to +150°C

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect product performance. An MSDS is available on request.
