Air Filter Oil

Issue: April 2015

Product Code	Pack Size	Ctn / Qty
MCFOAM0005	500ml	6
MCFOAM001	1 Litre	6

PENRITE

Description

Foam Filter Oil is a blue coloured, solvent based super tacky foam filter treatment which effectively stops the ingestion of sand, dirt and dust into the engine allowing the engine to breathe only clean & particle free air.

Application

Foam Filter Oil is ideal for use in competition applications, (on and off road) including severe racing conditions where large volumes of air flows through the engine intake system.

Foam Filter Oil may be used in all types of vehicles including passenger, 4WD's, racing & rally cars, motocross and on-road bikes, ATV's etc. both in competition and every day service.

Please note: This product is not suitable for use in any air-breathing and associated equipment, such as SCUBA gear.

Instructions for use:

- 1) Wear protective gloves at all times
- 2) Use a water-soluble degreaser such as **Penrite Foam Filter Cleaner** to clean filter
- 3) Allow filter to dry thoroughly before applying Foam Filter Oil.
- 4) Apply product sparingly while ensuring full coverage of the foam filter.
- 5) Squeeze out excess oil.
- 6) Allow to dry for 15 minutes before running engine.
- 7) Service intervals for the foam filters should be as per the engine manufacturers' recommendations.

Product Benefits

- Remains sticky at all times
- Traps airborne dirt and abrasive dust
- Prolongs life of engine induction systems
- Provides exceptional protection in all conditions

Typical Data

Colour	Blue
Density at 15°C, kg/L	0.805

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect product performance. An MSDS is available on request.
