

Product Information

POWER STEERING FLUID

Premium multipurpose power steering fluid meeting the requirements of Ford M2C-134D.

APPLICATION

Penrite Power Steering Fluid is designed for use in power steering units in cars and trucks that originally use an automatic power steering fluid such as:

Ford (including Falcon)	Holden
Toyota	Chrysler
Mitsubishi	Subaru

And many others.

A little heavier than traditional power steering fluids, it is designed to provide enhanced wear protection and reduce noise in Australian conditions.

It **should not** be used in Honda units, electronic power steering systems or in systems that use highly specialised or synthetic fluids. Examples of the latter include where LHM Plus (green) is required, such as:

Citroen (green or orange fluids)
BMW with self levelling suspension
Daimler 1989-1997

Jaguar XJ6 3.2L/4.0L 1989-1997
Audi/VW models with hydraulic suspension

It is also not recommended for use in Land Rover/Range Rover where PAS I4315 is required or in prestige European Vehicles that use CHF 11S.

If in any doubt, please contact Penrite or check the vehicle recommendation on our web page.

CUSTOMER BENEFITS

- Minimises squawk in power steering pumps.
- Effective anti wear additives provide wear protection.
- Protects against rust and corrosion
- Long service through good thermal stability

INDUSTRY SPECIFICATIONS

Ford M2C-134C/D*	PS 11872
GM 9985010	

* not for use in tractors

Typical Properties

Density at 15°C, kg/L	0.870
Flash Point, °C	218
Viscosity, Kinematic, cSt	
at 40°C	62
at 100°C	10.2
Viscosity Index	154
Phosphorus, mass %	0.031
